PROFESSIONAL SUMMARY

Senior Product Designer with 6+ years of experience designing B2B SaaS and fintech products. I enjoy turning complex challenges into simple, user-friendly solutions. Passionate about building and evolving design systems. A collaborative partner who helps deliver products that delight users and drive business outcomes.

EXPERIENCE

Senior Product Designer • TaxDome

September 2023 - January 2026

TaxDome is a B2B SaaS practice management platform serving 10k+ tax and accounting firms in the US, with 1.5M+ end clients

- Designed the MLP for a new AI-powered document checklist feature within the tax prep workflow, automating per-account data collection to replace legacy organizers. Conducted full product discovery and hypothesis validation; beta testing showed +50% completion rate and 40% fewer missing document requests.
- Overhauled cross-product filters, boosting user adoption +25% among mid-size firms and CSAT +15% within 3 months.
- Co-built a prioritization model adopted by all cluster teams.

Product Designer • TaxDome

April 2023 – September 2023

- Redesigned global navigation using 74-participant card sorting and user feedback. Optimized high-density workspaces to reduce cognitive load, resulting in boosted discoverability and improved CSAT.
- Expanded the design system with documented business modules and templates. Facilitated design token implementation across multiple product clusters.

Senior UX/UI Designer • Infopulse

July 2022 – April 2023

Enterprise B2B platform for industrial data governance in the energy sector

- Designed an MVP for a data quality management and documentation platform. Facilitated stakeholder workshops to align complex requirements.
- Consolidated fragmented legacy components into a documented Design System.
- Supported designer hiring, onboarding, and mentorship for new team members.

Product UX/UI Designer • Zipmex

March 2020 – May 2022

- Crafted the mobile UX/UI for a fast-growing Thai crypto exchange startup.
- Supported growth and marketing initiatives by maintaining consistency across product and marketing surfaces.
- Refined complex web exchange flows into seamless native mobile experiences.

EDUCATION

Master of Science in Economics

2021 - 2023, Sumy State University

PROFESSIONAL DEVELOPMENT

- Product Analytics. Data Mining 2.0 • Projector Institute**
- Measuring UX and Impact of Design • Projector Institute**

Portfolio
